

Final Year Projects For AI & ML Engineering

Access the **latest and most innovative artificial intelligence projects** for your studies and research at **VAARADA**. We offer the widest selection of AI project ideas, developed to assist students, engineers, and researchers in creating and exploring AI-based systems designed to benefit humankind. Browse our list to find the perfect topic for your needs.

Complete Artificial Intelligence Software Projects List:-

Chronic Obstructive Pulmonary Disease Prediction System
College Placement System Using Python
Face Recognition Attendance System for Employees using Python
Liver Cirrhosis Prediction System using Random Forest
Multiple Disease Prediction System using Machine Learning
Secure Persona Prediction and Data Leakage Prevention System using Python
Stroke Prediction System using Linear Regression
Toxic Comment Classification System using Deep Learning
Skin Disease Detection System Using CNN
Signature Verification System Using CNN
Heart Failure Prediction System
Python Doctor Appointment Booking System
Yoga Poses Detection using OpenPose

Credit Card Fraud Detection System Python
Automatic Pronunciation Mistake Detector
Learning Disability Detector and Classifier System
AI Mental Health Therapist Chatbot
Ecommerce Fake Product Reviews Monitor and Deletion System
Smart Time Table Generation Flutter App Using Genetic Algorithm
Chatbot Assistant System using Python
Dental Caries Detection System using Python
Movie Success Prediction System using Python
Speech Emotion Detection System using Python
Student Feedback Review System using Python
Use of Pose Estimation in Elderly People using Python
Intelligent Video Surveillance Using Deep Learning System
Leaf Detection System using OpenCV Python
Music Genres Classification using KNN System
Traffic Sign Recognition System using CNN
Auto capture Selfie by Detecting Smile Python
Face Recognition Attendance System using Python
Human Detector and Counter using Python
Pneumonia Detection using Chest X-Ray

Music Recommendation System by Facial Emotion
Parkinson's Detector System using Python
Cryptocurrency price prediction using Machine Learning Python
Depression Detection System using Python
Car Lane Detection Using NumPy OpenCV Python
Sign Language Recognition Using Python
Signature verification System using Python
Driver Drowsiness Detection System Using Python
Predicting House Price Using Decision Tree
Blockchain Based Antiques Verification System
Facial Emotion Detection using Neural Networks
Cancer Prediction using Naive Bayes
Voice based Intelligent Virtual Assistance for Windows
Online Logistic Chatbot System
Transformer Conversational Chatbot in Python using TensorFlow 2.0
Lane-Line Detection System in Python using OpenCV
Facial Emotion Recognition and Detection in Python using Deep Learning
Artificial Intelligence HealthCare Chatbot System
Online Assignment Plagiarism Checker Project using Data Mining
Teachers Automatic Time-Table Software Generation System using PHP

Read Me My Book App
Customer Targeted E-Commerce
Android General Knowledge Chatbot
Customer Focused Ecommerce Site With AI Bot
Your Personal Nutritionist Using FatSecret API
Price Negotiator Ecommerce ChatBot System
Personality Prediction System Through CV Analysis
TV Show Popularity Analysis Using Data Mining
Twitter Trend Analysis Using Latent Dirichlet Allocation
Online Book Recommendation Using Collaborative Filtering
Movie Success Prediction Using Data Mining Php
Fake Product Review Monitoring & Removal For Genuine Ratings Php
A Commodity Search System For Online Shopping Using Web Mining
College Enquiry Chat Bot
Stream Analysis For Career Choice Aptitude Tests
Product Review Analysis For Genuine Rating
Android Smart City Traveler
Artificial Intelligence Dietician
Heart Disease Prediction Project
Smart Health Consulting Project

Banking Bot Project
Sentiment Based Movie Rating System
Online AI Shopping With M-Wallet System
Question paper generator system
Student Information Chatbot Project
Website Evaluation Using Opinion Mining
Android Attendance System
Intelligent Tourist System Project
AI Desktop Partner
Intelligent Chat Bot
Stock Market Analysis and Prediction
Automatic Answer Checker
